

PARTH VIVEK DEORE

Aurangabad (Chh. Sambhaji Nagar), Maharashtra | +91-7385539172 | deoreparth700@gmail.com | github.com/deoreparth700-design

PROFILE SUMMARY

Computer Science Engineering student building toward backend Python development with AI automation expertise. Solid foundation in Python, REST API design, SQL, and core CS concepts (DBMS, Operating Systems, Computer Networks). Hands-on project experience spanning web application development and backend API services. Disciplined self-directed learner following a structured backend engineering roadmap, seeking a placement opportunity in software/backend development.

TECHNICAL SKILLS

- Programming Languages: Python (Core), C (Basics)
- Backend Development: Django, REST API Design (FastAPI — currently learning)
- Databases: SQL, PostgreSQL, MongoDB, DBMS Concepts
- Tools & Platforms: Git, GitHub, VS Code, Unity, Vuforia
- Core Competencies: Problem Solving, Backend Logic Building, Debugging, Analytical Thinking

ACADEMIC / PERSONAL PROJECTS

Code for all projects below: github.com/deoreparth700-design

Alumni Portal — Final Year Project | React, Node.js/Express, MongoDB Atlas

- Developed a web-based Alumni Portal for SOET to connect alumni, students, and the college, including alumni registration and profile management.
- Built job and internship posting, event update, and communication features to strengthen the institute's professional network.
- Produced supporting architecture documentation (DFDs, UML use case diagrams, ER diagrams) and system architecture explanations.

AR Smart Cooking Assistant | Unity, Vuforia, Augmented Reality

- Built an Augmented Reality smartphone application providing interactive, step-by-step cooking guidance.
- Used Unity and Vuforia to overlay virtual instructions on real-world ingredients for a hands-free, beginner-friendly experience.

Task Manager Backend API (In Progress) | Django, SQL

- Building a backend API using Django with SQL database integration and an authentication system.
- Designing REST API endpoints for real-world backend usage.

EDUCATION

Bachelor of Engineering, Computer Science Engineering | 2023 – 2027 | CGPA: 7.59

School of Engineering and Technology, MGM University, Chh. Sambhaji Nagar, Maharashtra

Higher Secondary Certificate (XII) | 2023 | Maharashtra Board | 56%

Swami Vivekanand College, Maharashtra

Secondary School Certificate (X) | 2020 | Maharashtra Board | 89%

Swami Samarth English School, Maharashtra

CERTIFICATIONS & TRAINING

- Software Engineering Job Simulation — JPMorgan Chase & Co. (Forage), Jul 2026: Kafka Integration, H2 Integration, REST API Integration & Controller
- Software Development Job Simulation — Datacom (Forage), Jul 2026: Software Review, Root Cause Analysis & Bug Fixing
- Python Programming Course
- Backend Development with FastAPI — Self-Study

ADDITIONAL INFORMATION

- Languages: English, Hindi, Marathi
- Areas of Interest: Backend Development, REST APIs, Database Systems, AI Automation
